@WinEraProject

What is the WinEra project about?

“WinEra – Fostering EU wine through a new era of specialized training for organic and bio-dynamic wine-producers in EU” is an Erasmus+ project that aims to enhance the competitiveness of the European wineries through the development of their potential for production and promotion of organic and bio-dynamic wines.

Who is it for?

- Organic and Bio-dynamic wineries
- Organic and Bio-dynamic farmers
- New incomers interested in organic farming, (i.e. entrepreneurs interested to invest in wine production)
- Local agricultural cooperatives, associations and authorities
- Consultancy companies, professional associations, NGOs
- Students & youngsters
- Local educational institutions, VET centres etc.

The WinEra results

WinEra Learning Model

The Model includes the didactic methodology for the training course and the manual for trainers.

WinEra Training course

A Training course on the process of production of organic and bio-dynamic wine in all the different phases of production.

WinEra Manual for trainers

A Manual for trainers and for supporting organizations on the WinEra course.

WinEra e-learning platform

The e-learning platform will host the training course material.

WinEra Guidebook on certification of organic & bio-dynamic wine

The Guidebook will contain information on how to certify wine as organic or bio-dynamic.
